SUMMARY

Frontend Developer skilled in building performant, responsive applications with Next.js, React, and TypeScript. Proficient in creating modern UI components using Shadcn/UI.

SKILLS

React, Next.js, Shadcn UI, JavaScript (ES6+), TypeScript, TanStack Query, HTML5, CSS3, Redux Toolkit, Git/Github, Tailwind CSS, RESTful APIs, Agile/Scrum, Performance Optimization, Vercel, React testing library

PROJECTS

NexTap - Built the core rich-text editor with Next.js 16, React, and Tiptap editor, providing a smooth standalone editing experience by leveraging its built-in invitations and permissions management. - Implemented user authentication, team workspace, and role-based system (Owner, Admin, Member) using Better Auth. - Applied a task management system within the authenticated workspace, allowing users to create, assign, and track tasks.	Nov 2025 - Dec 2025
Pulse - Implemented a real-time social messaging platform featuring instant messaging, group chats, multimedia stories, and image sharing. - Built a secure, scalable backend with tRPC, Hono, and Prisma connected to Neon DB, integrating authentication via Better Auth. - Delivered advanced user features including message reactions, chat archiving, and starred messages within a polished Next.js frontend.	Sep 2025 - Nov 2025
Vibify - Engineered a responsive music player frontend using React with Vite, implementing core features like playback, search, and library management. - Developed a trends-based AI recommender with Vercel AI SDK that selects and suggests 10 tracks. - Built the full backend, including database, authentication, and file storage, using Supabase.	May 2025 - Aug 2025
Cryptocurrency Tracker - Built a dynamic dashboard with Next.js, displaying real-time crypto price data, interactive charts, and currency conversion tools - Developed a full-stack data flow using Prisma ORM with a relational database to manage user data, and bookmarked news articles - Integrated secure user authentication, profile management, and session handling using Clerk	Feb 2025 - May 2025

EDUCATION

Tishreen University Bachelor of Science in Informatics Engineering	Nov 2019 - Nov 2024
